Drug Information Resources:
Beyond the Basics

Tuesday, August 26, 2014
6:00 pm to 9:15 pm
Center for Learning and Development
& Webinar
Charlotte NC

Co-sponsored by Charlotte AHEC and
The University of North Carolina Eshelman School of Pharmacy.

Target Audience: Pharmacists, Physicians, Nurse Practitioners and Physician Assistants

Goal: This knowledge-based CPE activity will provide participants with in-depth knowledge of drug information references that will be useful in a variety of practice settings. Internet resources and mobile applications will be discussed. Secondary databases, primarily PubMed, will be discussed and participants will be introduced to advanced searching techniques to optimize literature search retrieval.

Course Objectives:

- Identify drug information Internet resources and select the most appropriate resource for a specific request
- Describe the role of mobile applications for the provision of drug information in a variety of practice settings
- Define secondary databases and list secondary databases useful in the biomedical sciences
- Describe a systematic approach to searching secondary databases
- Describe advanced search strategies in PubMed to perform an effective literature search
- Discuss the process for performing an organized search of the biomedical literature in PubMed when given a specific drug information request.

Registration
Participants must sign in at the registration table before the start of the program. Registration and check-in will begin at 6:00 pm.
