**Description:**

The 2018 Symposium will provide topics ranging from the historical aspects of radiation oncology to SBRT methods and practice efficiencies. The program is intended to provide attendees with insight into best practices, various new developments in Radiation Oncology, and review of where we've been and where we're going. The presentations will fulfill continuing education requirements for Radiation Therapists, Dosimetrists, and Nurses. Physicians, Physicists, and other healthcare professionals are welcome to attend.

**Objectives:**

Attendees will be able to:  
Describe the historical foundations of Radiation Oncology  
Identify the benefits of SRS and SBRT treatment methods  
List technological advances that can improve practice efficiencies

**Registration Fee:**

Pre-Registration - \$100.00 before Feb 23
