***Co-sponsored by Ambulatory Care Pharmacy Forum of North Carolina,
Charlotte AHEC and The University of North Carolina Eshelman School of Pharmacy***

Target Audience:

Pharmacists

Goal: The Ambulatory Care Pharmacy Forum of North Carolina is a network for and led by ambulatory clinical pharmacists with an ongoing goal of providing networking, collaboration, and educational opportunities for likeminded pharmacists in North Carolina with an emphasis on practical ambulatory care topics and unmet public health needs. In addition to providing networking opportunities for ambulatory care pharmacist, this knowledge-based CPE activity will provide the pharmacist with clinical practice updates on mental health, heart failure, pain management, and best practices for understanding and navigating recent Medicaid changes.

Pharmacist Course Objectives:

At the completion of this knowledge-based activity, the participant should be able to:

- 1) List available resources to enhance a pharmacists' role in working with patients with mental health disease(s)
- 2) Identify the elements of an opioid medication stewardship program, and its application in chronic pain management
- 3) Discuss pragmatic suggestions for the appropriate management of chronic pain patients, including use/deprescribing of opioid agents, urine toxicologic screening, and medication contracts.
- 4) Outline key changes from the 2017 ACC/AHA/HFSA Focused Update for the Management of Heart Failure guidelines
- 5) Discuss credentialing and privileging for pharmacists and how it contributes to the advancement of patient care delivery
- 6) Identify recent Medicaid changes regarding Clinical Pharmacist Practitioners and their impact on credentialing and billing
