

Long-Acting Behavioral Health Injections- Preparing Pharmacists for a Practice Opportunity

Thursday, March 24, 2022

6:30 PM to 8:30 PM

Zoom Webinar

Charlotte NC

***Co-sponsored by Charlotte AHEC and
The University of North Carolina Eshelman School of Pharmacy.***

Target Audience: Pharmacists

Goal:

The North Carolina General Assembly has passed, and Governor Cooper has signed into law, legislation that authorizes qualified immunizing pharmacists to administer long-acting injectable medications to patients age 18 and older pursuant to prescription. This new authority became effective on October 1, 2021.

This knowledge-based CPE activity will provide pharmacists with a better understanding the counseling points, the available products, and management of these behavioral health injectable depot agents in order to better implement this law in the pharmacy setting.

Pharmacist Course Objectives:

At the completion of this knowledge-based activity, the participant should be able to:

1. Summarize key counseling points of behavioral health injectable depot agents
2. Identify unique properties of available behavioral health injectable depot agents
3. Outline clinical pearls for managing behavioral health injectable depot agents
4. Describe emerging best practices for implementing a long acting injectable service in the pharmacy setting

Registration

Webinar participants may check into the virtual meeting space by 6:00 PM. The course begins promptly at 6:30 PM and ends at 8:30 PM with the course schedule and costs as follows:

6:00 pm to 6:30 pm
