THE SYMPOSIUM

The Department of Pathology and Laboratory Medicine of the University of North Carolina at Chapel Hill and the Carolinas HealthCare System/Charlotte AHEC jointly present this symposium to provide practicing pathologists with practical updates in Surgical Pathology and Cytopathology. The event will honor Dr. Tom Bouldin for his many years of service as Director of the Pathology Residency Program at UNC. The keynote speaker is Dr. Chad A. Livasy from Carolinas Pathology Group in Charlotte, who will present the 11th annual Walter R. Benson Lecture on diagnostic dilemmas in breast pathology. Dr. Livasy has a unique perspective based on extensive experience with diagnostic breast pathology in both an academic and community practice setting, as well as extensive involvement in cutting edge clinical and translational breast cancer research. Dr. Livasy and all of the other speakers trained at UNC while Tom Bouldin was Residency Program Director.
