Statements of CE Credit will be processed in approximately 4 to 6 weeks. **No partial credit will be available**

DISCLOSURE STATEMENT:
In accordance with the Accreditation Council for Pharmacy Education’s Guidelines for Standards for Commercial Support, anyone involved in planning or presenting at this educational activity will be required to disclose any relevant financial relationships with commercial interests in the healthcare industry. This information will be made available to participants at the beginning of the activity. Speakers who incorporate information about off-label or investigational use of drugs or devices will be asked to disclose this information at the beginning of their presentation.

This Conference is supported in part by Abbott and Covidien. This Conference was also supported by a grant from NPS.

LEARNING OBJECTIVES

**Day 1**
At completion of this knowledge-based activity, the participant should be able to:

- Discuss the importance of early nutrition and feeding protocols for critically ill patients.
- Review an enteral nutrition feeding regimen based on interpretation and critique of abdominal radiographs.
- Review nutrition management strategies for patients with *Clostridium difficile* infection.
- Discuss the electrolytes in a parenteral nutrition order in the face of abnormal patient laboratory values and medications.
- Describe glycemic control strategies for patients receiving parenteral nutrition

**Day 2**
- Discuss strategies that can be implemented to improve the safety of parenteral nutrition in both the institutional and outpatient settings.
- Review an appropriate a plan for initiating nutrition support therapy for an acutely ill child.
- Discuss the impact of healthcare reform on providing nutrition support therapies.
- Discuss current reimbursement challenges for providing nutrition support therapies at home and alternative sites.
